

# KUTIKAI

Furniture for Kids Club

create a creative place for children with us

# Invitation to our world

Hello!

We would like to introduce Kutikai  
– a design furniture dedicated for kids.

Please find below more information  
and our history.

As a potential new retailer we would  
love to cooperate with You.

## Kutikai imagine

Kutikai believes that children's imagination has no limits -it's the promised land of play. A place where kids do everything and be anyone.

With all super powers at the tip of their finger. Jst imagine...

Kutikai furniture is designed to combine functionality with a surprise that unlocks creativity and imagination.

## Kutikai origin

Our furniture is created with respect for nature and ecology, produced at small, family carpentry shop in southern Poland.

We offers the highest quality wooden furniture with simple minimalistic design. Each piece is made with love and refined in every detail.

In Tamil language a word „kutikai” means a safe house and a secret dwelling.

## Kids Club in hotel

Kids Club is not only a corner with a few colored pencils. today it is an indispensable element in choosing a place for parents and children. Increasingly aware consumers choose what is good for their children. Kutikai furniture is produced by hand, with attention to every detail and most importantly with children in mind.

Our furniture is chosen by parents, hotels and restaurants. Thanks to their original shapes, they attract attention and decorate the interior.

## Perfect furniture for public spaces

An ideal place for children in public spaces. Space for the youngest available, among others, in the restaurant. Even a small space can be properly prepared so that it encourages children to play actively. Our house desk, which is used not only for drawing, but invites children to play at home or shelter.
